Thesis Supervisor:
Title and supervisor name
Program name

The Faculty requires an Abstract for a master's or doctoral thesis. It must be in both submitted copies and must follow the format given in the sample. The title of the thesis must appear exactly as it does on the Title Page. The name of your Supervisor must appear in full with his or her appropriate academic title (no professional titles may be used) and the name of the program authorized to offer the degree.

The text of the Abstract must be one-and-one-half or double-spaced and must conform to margin requirements.

All abstracts must not exceed 350 words or 35 lines (this requirement is inline with the requirement of Dissertation Abstracts International so that your abstract could be published in full there if necessary).

It is requested by the publisher that the Abstract not include formulas, diagrams, or symbols. Should a formula, diagram, or symbol be essential to the text in the Abstract, it may not be handwritten. If Greek letters of the alphabet are to be used, they must be clearly inscribed.

PREFACE

ACKNOWLEDMGENTS

The author wishes to ...

Acknowledgments recognize the persons to whom you are indebted for guidance and assistance and those to whom you are grateful for any special or non-routine aid. Faculty members serve on Examination Committees as part of their regular work and do not require formal acknowledgment, although in most cases the help given far exceeds any requirement and should, as a matter of courtesy, be recognized.

Acknowledgments should be expressed simply and tactfully. They should be one-and-one-half or double-spaced and conform with margin requirements.

APPENDIX A: APPENDIX SAMPLE

Appendices may consist of material that is related to, but not appropriate for, inclusion in the text. They appear after the Bibliography or List of References and must be titled. They are listed, along with their titles, in the Table of Contents, not on a separate list of appendices. Pagination is continuous with the text, and the first page of each appendix is treated like the first page of a chapter in the text (i.e., counted, but not numbered).

APPENDIX B: MORE APPENDIX SAMPLE

Appendix material also need to meet the requirements for margins and readability. Material may be reduced as long as it remains legible. However, appendix titles and page numbers must remain full-size; it is recommended that they be added to the page after reduction.

APPENDIX C: ANOTHER APPENDIX SAMPLE

Any illustrations appearing in the appendices which are not from previously published material must be captioned and placed in the appropriate list.
